The Trifecta 2.0 bed cover comes fully assembled. Note any damaged or missing components before installing.

MISSING PARTS?? call Extang at 1-800-877-2588
Any required parts will be shipped to you directly. (DO NOT return whole kit to store)

1. It is important that all areas where the tonneau mounts are clean and free of debris prior to installing.

2. Place assembled cover over the cab end of the truck box.

3. Unfold the cover fully and adjust position over the truck bed for proper front (cab) / rear (tailgate) alignment. Carefully refold the tonneau without shifting its position on the truck bed.
4 If your truck has a bed cap or bedliner that covers the metal bed wall flange, you will need to remove enough so that all the clamps make solid contact. For bed caps, trim only enough of the bed cap edge so the rear (tailgate) clamp contacts the bottom of the metal flange. For bed liners that cover the metal flange, trim a minimum of 100 mm or 4" of the liner wall so the clamps contact the bottom of the metal flange.

The front (cab) clamp stows in the tonneau panel rail. Rotate the clamp down and slide it towards the bed rail. Rotate the body of the clamp up or down to match it's position with the bed rail flange. Then swing the clamp vertically and align the clamp jaw under the metal truck bed flange. Position the clamp body so that bottom of the ridges match the bottom of the metal flange. Position the clamp body so that bottom of the ridges match the bottom of the metal flange.

5 With the tailgate open and the front (cab) clamps secure, completely close the cover.

6 Swing and pull the rear (tailgate) clamps down and hook under the bottom edge of the bed wall. Slide the rear (tailgate) clamp out to the bed wall.

7 Extang Corporation, 5400 S. State Road, Ann Arbor, MI 48108, 734-677-0444, Fax: 734-677-8409 Register your warranty at: extang.com
To prepare the Trifecta 2.0 to drive in the open position, release the rear (tailgate) clamps and fold the cover forward.

IMPORTANT: Before folding the second section of the cover, the rear (tailgate) clamps must be stowed securely into the rail.

IMPORTANT NOTICE
While driving, cover must be completely flat and secure with all four clamps in the closed position or completely folded up (all panels) and secured at the cab. DO NOT DRIVE with cover in partially opened position.

Do NOT tow your vehicle from the rear with any Extang tonneau cover on your truck.
TRIFECTA 2.0

Replacement Parts

NOTE: To order replacement parts, it's best to contact our Customer Service Department for assistance, to ensure getting the correct part for your vehicle application. When ordering, xxx represents the 3-digit suffix, as referenced on the sales receipt or vehicle application list. Customer Service Department: 800-877-2588.

* Specify: Year, Make, Model, bed length, Driver or Passenger side.
**Special Instructions for Alternative Brackets**

**SUPPLEMENT to INSTALLATION INSTRUCTIONS**

---

**Dodge Dakota 08-11**

- Front (cab clamp)
