Removing a Headrest

TABs
Depress one or both side tabs while lifting headrest. This may require more than one person.
**Removing a Headrest**

**PIN HOLES on Headrest**
Insert a paperclip end into the hole on the side of the headrest top.
While pressing the paper clip, lift headrest.

---

**Removing a Headrest**

**SLOT and TAB**
Depress the tab and press into the slot at the same time, and lift headrest. This requires two or more people.
Removing a Headrest

PIN HOLE and TAB
Insert a paperclip end into the hole on the side of the headrest base. While pressing the paperclip, press the tab on the other base. While pressing both, lift the headrest. This requires two or more people.
Backrest Cover Installation
Bucket Seats with Non-Removeable Headrest

TIP: Fold the seatback forward to gain better access while passing the flap through.

Backrest Cover Installation
Certain Seats Required to be Folded forward for proper installation

Attach velcro to the flap which is passed through the opening between seatback and seat bottom.
Backrest Cover Installation
Bucket Seats w/ Integrated Seat Belts

TIP: See “Finishing Touches” for cleaner headrest post finishing
TIP: Fold the seatback forward to gain better access while passing the flap through the seatback and seat bottom

Affix Velcro

Backrest Cover Installation
High-Back Bucket Seats

TIP: Fold the seatback forward to gain better access while passing the flap through

Pass flap through the opening between seatback and seat bottom, then attach velcro
Backrest Cover Installation
60/40 Split Bench

See “Removing a Headrest” section for details on removing headrests.

TIP: Fold the seatback forward to gain better access while passing the flap through.
Pass flap through the opening between seatback and seat bottom, then attach velcro.

Backrest Cover Installation
Special - for older Jeep models
Seat Bottom Cover

TIP: Fold the seatback forward to gain better access while passing the flap through.

Note: Some seat bases are not covered.

Position cover over seat bottom. Pass flap through and attach buckles and hooks.

TIP: Tuck excess material behind plastic trim pieces for an extra custom look.
Solid Bench

Follow these simple instructions if you have a solid bench seat (Three people can sit on the seat) (with and without headrests)

TIP: Fold the seatback forward for easier access

Place backrest cover over backrest. If the seat has a folding armrest, place it in the “up” position. If seat has headrests, remove headrests prior to installation (see “Headrest Removal” instructions)

Tuck flap through the opening between seatback and seat bottom.

Place seat bottom cover over seat bottom, and affix straps.

See “Finishing Touches” instructions for extra tips
Console Cover Installation

Pass Console bottom flap through opening, then affix velcro.

Open Console

Cover Console top, then Console bottom.
Special Instructions - 1

Seats with Airbags, Lumbar Supports and Armrests require special instructions:

A

Seats with Integrated Seat Airbags must be covered only with seat covers designed with opening flaps. The flap inserts inside the cutout, and should be able to open freely in case of deployment.

If your vehicle has seat mounted airbags, be certain that the seat covers have airbag cutouts or flaps! DO NOT COVER SEAT AIRBAGS

B

Some levers or controls may require a slit in the seat cover.

C

Installing backrest cover around armrests.

D

Installing armrest covers, affixing velcro.
Special Instructions - 2

Certain Late-Model vehicles, including Lexus, Toyota, Infiniti, Nissan, Hyundai and others have a piece of fabric which prevents the seat cover flap from going through the opening of the seatback and seat bottom.

This flap will need to be removed to install the seat cover. Below are instructions detailing the methods used to remove this fabric.

The views shown below are looking at the bottom of the seat.

CONDITION 1 - An elastic strap holds the flap of fabric to some permanently mounted hooks. To remove, simply pull the elastic forward and remove the elastic loop from the hook.

CONDITION 2 - Metal hoops hold the flap of fabric to a steel support under the seat. To remove, use a set of pliers to open the hoop, and remove the fabric.
Finishing Touches

If you have extra time and a little mechanical inclination, your seat covers can fit even better by following these simple finishing touches:

A

Material around the headrest posts can be stretched over the base and tucked underneath.

B

Adjust material around armrests by tucking excessive material around the base.

C

Pay special attention to small levers, such as lumbar support. Material should be tucked under the lever.

D

TIP: Fold the seatback forward for easier access

After the first two weeks of use, tighten the seat back covers by releasing them, and - using the assistance of another person - pull the material very tight, and affix the Velcro fastener.
